

FREE 'Magic Breakfast' for ALL Children!

We are delighted to tell you of our new Breakfast provision which has started this term. Every morning, we will provide breakfast to **all children** in the school **free of charge**.

On Monday, Wednesday and Thursday, we will offer fresh bagels in the playground from 8.15am and on Tuesday and Friday all children can enjoy healthy cereal with milk in their classrooms from 8.40am.

Our bagels and cereals are specifically made to be "child friendly" and are low in sugar and low in salt.

Nut Free School and Packed Lunches

As we are a healthy Nut Free School, we encourage all parents to provide their children with healthy packed lunches. We recommend fruit with packed lunches and would like to remind parents that nuts are **not** allowed.

CLUB REMINDERS

Clubs for this term will start Monday 24 September and end Friday 7 December.

Breakfast Clubs begin at 8am until 8:45am

After School Clubs begin at 3:10pm until 4:10pm.

If your child is attending a Sports Club please provide them with a PE Kit.

Please note that all children must be collected by an adult.

Year 5 News

Children from Year 5 have recently taken part in a workshop about the Earth, sun and moon at the Soanes Centre, and have also visited the **Royal Observatory** in Greenwich, where they watched a show in the **Planetarium**.

Both children and adults have greatly improved their understanding of space and had a lot of fun!

Attendance

Please see below the attendance winners for last week—
Week ending 21st September 2018

EYFS/KS1 - Reggae Class 97% and
KS2- R & B Class 99.3%

ParentPay is coming! Gallions Primary School will be introducing ParentPay for all parents to use next term. You will be receiving details from the school next month with your account details. You will be able to log in and pay for school trips and clubs using ParentPay. Look out for the letter.

Science

On Monday 24th September, Gallions was visited by Dr Matt Pritchard from *Science Magic Shows*. Matt educated and entertained children from 5-11 years throughout the day! The 'How Science Works' show really showed students how science and magic are related and gave them an interesting insight into the work of different scientists.

Children were challenged to discover the sneaky scientific secrets behind the surprising illusions.

This was not just an awe & wonder show but one that encouraged scientific enquiry and critical thinking skills. Along the way children were taught a host of science tricks using everyday household objects that they can go away and try later; extending the learning and providing teachers with lots of follow up opportunities.

We hope that children have come home and shared some of the tricks of science with you at home!
